Just a reminder with regards to crop insurance changes. If you have any changes you want to make to your policy type, price election, trend adjustment, or the level of coverage that you have, those changes are due by Tuesday, March 15, 2016. This could be any name change, switching to a trust or corporation, any changes in marital status or address, or bringing additional land into production or share changes.

One more thing to remember as the weather changes and we get ready for the busy spring planting season. For more information on Peoples Company or our Land Management team, please visit PeoplesCompany.com/services/land-management.
